The clerk and recorder of the county may not accept any final plat or certificate of survey for record that has not been approved in accordance with this part unless the final plat or certificate of survey is located in an area over which the state does not have jurisdiction.

(b) After the preliminary plat of a subdivision has been approved or conditionally approved, the subdivider may enter into contracts to sell lots in the proposed subdivision if all of the following contract conditions are imposed and met:

(iv) the county treasurer has certified that no real property taxes assessed and levied on the land to be divided are delinquent; and

(v) the following language is conspicuously set out in each contract: "The real property that is the subject of this contract has not been finally platted, and until a final plat identifying the property has been filed

with the county clerk and recorder, title to the property may not be transferred in any manner".

(b) (i) If a division of land includes centrally assessed property and the property taxes applicable to the division of land are not specifically identified in the tax assessment, the department of revenue shall prorate the taxes applicable to the land being divided on a reasonable basis. The owner of the centrally assessed property shall ensure that the prorated real property taxes and special assessments are paid on the land being sold before the division of land is made.

(ii) The county treasurer may accept the amount of the tax prorated pursuant to this subsection (2)(b) as a partial payment of the total tax that is due.

The governing body or the district court, as provided in 7-5-2502, shall take into consideration:

- (i) the previous platting;
- (ii) the manner in which the right-of-way was originally dedicated, granted, or conveyed;
- (iii) the reasons stated in the petition requesting the vacation;
- (iv) the parties requesting the vacation; and
- (v) any agreements between the adjacent property owners regarding the use of the vacated area.

The title to the streets and alleys of the vacated portions may revert to one or more of the owners of the properties within the platted area adjacent to the vacated portions.

(b) Notwithstanding the provisions of subsection (5)(a), when any poleline, pipeline, or any other public or private facility is located in a vacated street or alley at the time of the reversion of the title to the vacated street or alley, the owner of the public or private utility facility has an easement over the vacated land to continue the operation and maintenance of the public utility facility.

(6) (a) After a final subdivision plat has been filed for record with the county clerk and recorder, a homeowners' association may file a petition with the governing body to transfer title to the homeowners' association of any open spaces, parks, or similar common-use areas set aside in the final plat if the following conditions are met:

- (i) the homeowners' association is organized in accordance with the covenants;
 - (ii) the covenants require the homeowners' association to maintain, repair, or insure the open spaces, parks, or similar common-use areas;
 - (iii) the governing body finds that it was the intent of the subdivider that the open spaces, parks, or similar common-use areas be owned by the homeowners' association; and
 - (iv) the property to be transferred is not owned by a person.
- (b) The petition under subsection (6)(a) must be signed by an authorized representative of the homeowners' association.

(c) After a public hearing on the petition, the governing body shall issue written findings of fact and a decision based on the record. If the requirements of subsection (6)(a) have been met, the governing body shall approve the transfer. If the governing body approves the transfer, the approval must be recorded with the clerk and recorder."
