Except as provided in subsections (8), (10), and (11), the premises must be separated from the rest of the building by permanent walls but may have inside access to the rest of the building at all times even if the businesses or uses in the other part of the building are unrelated to the operation of the premises in which the alcoholic beverages are served. A licensee may lease the kitchen or another specified area to allow another business entity to operate a business within its premises without permanent floor-to-ceiling walls and without a concession agreement if the other business does not take orders for, serve, or deliver alcohol and has a separate point of sale system. If the premises are located in a portion of a building, the licensed retailer must be able to demonstrate that there are adequate safeguards in place to prevent public access to alcoholic beverages after hours, either by the presence of a lockable door or other security features such as rolling gates, locking cabinets, tap locks, or key card access.

(b) A resort retail all-beverages licensee, a retail all-beverages licensee, or an on-premises consumption beer and wine licensee within the boundaries of a resort area may also utilize up to three alternate alcoholic beverage storage facilities as allowed in 16-4-213(8).

An alteration for the purposes of this section is any structural change in a premises that does not increase the square footage of the existing approved premises. An alteration that increases the square footage of the existing approved premises must be approved by the department prior to beginning the alteration. A cosmetic change, such as painting, carpeting, or other interior decorating, is not considered an alteration under this section. If the alteration does not require the licensee to obtain a building permit, then the

inspections by local government agencies may not be required for department approval.

(3) The interior portion of the licensed premises must be a continuous area that is under the control of the licensee and not interrupted by any area in which the licensee does not have adequate control and includes multiple floors on the premises and common areas necessarily shared by multiple building tenants in order to allow patrons to access other tenant businesses or private dwellings in the same building, including but not limited to entryways, hallways, stairwells, and elevators.

(9) (a) For the purposes of this section, "adequate physical separation" means:

(i) the premises of the retailer and the premises of the brewery or winery are secured after

business hours from each other and from any other business, including but not limited to prohibiting a customer from accessing a brewery sample room and purchasing alcohol after the brewery tasting room hours of operation as specified in 16-3-213(2)(b); and

(ii) the separation may include doors, gates, or windows that may be left open during business hours.

(b) The term does not require permanent floor-to-ceiling walls.

(10) For colocated premises authorized in 16-4-401(9), there are no physical separation requirements applied by this code but the licensee shall follow any federal requirements.

(11) A public airport all-beverages licensee, licensed pursuant to 16-4-208, or the Yellowstone airport beer and wine licensee, licensed pursuant to 16-4-304, may use the airport terminal or part of the terminal as premises licensed for the on-premises consumption of alcoholic beverages without regard to other businesses or uses in the terminal.
