

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA TO DECLARE THE LAST FULL WEEK IN SEPTEMBER AS FRONTOTEMPORAL DEGENERATION AWARENESS WEEK IN THE STATE OF MONTANA.

WHEREAS, it is the custom of the Montana Legislature to recognize official weeks that are set aside to increase awareness of conditions that affect the lives of citizens of Montana; and

WHEREAS, attendant to such concern, it is the sense of the Montana Legislature to proclaim the last full week of September as Frontotemporal Degeneration (FTD) Awareness Week in the State of Montana, in conjunction with the observance of World FTD Awareness Week; and

WHEREAS, FTD is identified in the National Plan to Address Alzheimer's Disease as a related dementia and included as a priority in the goals and strategies of the plan to achieve the vision of a nation free of Alzheimer's disease and related dementias; and

WHEREAS, a primary goal of the Montana Alzheimer's and Dementia State Plan is to promote public awareness and understanding of dementia related diseases; and

WHEREAS, the Association for Frontotemporal Degeneration (AFTD) reports that frontotemporal degeneration (FTD) is a terminal and incurable neurodegenerative disease affecting the frontal and temporal lobes, causing impairments to speech, personality, behavior, and motor skills, which constitutes a major public health concern; and

WHEREAS, it takes an average of 3.6 years from the onset of symptoms to get an accurate diagnosis of FTD with average life expectancy of 7-13 years after start of symptoms; and

WHEREAS, FTD strikes people as young as 21 and old as 80 with the largest percentage of those affected being in their 40s to 60s, rendering people in the prime of life unable to work or function normally; and

WHEREAS, FTD represents an estimated 5 to 15 percent of all dementia cases and is the most

common form of dementia for people under 60 years of age; and

WHEREAS, FTD is often misdiagnosed as a psychiatric problem or other neurodegenerative disease because of the wide range of cognitive and behavioral symptoms and their young onset; and

WHEREAS, FTD imposes average annual costs associated with care and living with the disease that are approximately double those of Alzheimer's disease; and

WHEREAS, FTD often affects a person's ability to express emotions and to show affection and empathy for loved ones; and

WHEREAS, in the behavioral variant of FTD, a person's sense of social graces and appropriate behavior can be lost, and their personality may be significantly changed; and

WHEREAS, in the language variants of FTD (primary progressive aphasia), a person may have trouble producing speech and understanding grammar, lose the meaning of words or become hesitant in their speech, and may eventually become mute; and

WHEREAS, in the movement variants of FTD, a person may experience muscle weakness, falling, loss of balance, difficulty making speech, difficulty swallowing, or choking; and

WHEREAS, while there has never been a global epidemiology study of FTD, it is estimated that more than 60,000 people are affected in the United States today; and

WHEREAS, AFTD is the leading national organization exclusively focused on the spectrum of FTD disorders with a mission to improve the quality of life of people affected by FTD and drive research to a cure; and

WHEREAS, it is imperative that there be greater awareness of this serious disease, and more must be done to increase activity at the local, state, and national levels.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature proclaims the last full week of September as Frontotemporal Degeneration Awareness Week and requests that the Governor issue a proclamation of the same.

BE IT FURTHER RESOLVED that the Secretary of State send a copy of this resolution to the Governor, to the director of the Montana Department of Public Health and Human Services, and to the county

commission of each county in Montana.

- END -

I hereby certify that the within bill,  
HJ 19, originated in the House.
