Description of fiscal impact

SB 132 creates separate crimes for minor in possession or unlawful attempt to purchase alcohol, marijuana, or other intoxicating substance. There is no substantive fiscal impact anticipated for the state.

FISCAL ANALYSIS

Assumptions

- Section 1 of SB132 creates a new crime for possession of or unlawful attempt to purchase alcoholic beverage for persons under 21 years of age.
- Section 2 of SB132 creates a new crime for possession of or unlawful attempt to purchase marijuana for persons under 21 years of age.
- The change in the statute that SB 132 creates does not have any anticipated fiscal impact on the state.
- There could be an increase in fine revenue but it is not quantifiable at this time.

Technical Concerns

Department of Public Health and Human Services

- SB 132 is anticipated to have a negligible fiscal impact on Medicaid. There may be a minor decrease in youth LAC (licensed addiction counselor) assessments and subsequent treatment. This is because the bill requires a second conviction for the same type of substance before an assessment is required, potentially reducing the number of assessments and subsequent treatment referrals
