Description of fiscal impact: SB 359 establishes a distracted driving offense related to the use of mobile devices. It establishes a requirement for the use of hands-free devices while operating a motor vehicle. If passed, Montana Highway Patrol (MHP) officers may pull over drivers that are blatantly using handheld electronic devices while driving. The bill will have a positive, but indeterminant fiscal impact on both general fund and state special fund revenue.

FISCAL ANALYSIS

Assumptions:

Department of Justice

1. The MHP does not have insight into how many citations may be written under the proposed bill, so cannot accurately project a fiscal impact.
2. Fine revenue will be determined by the number of fines written and the amount of each fine imposed. Half of fine revenue will go to the general fund and half will go to the county in where the fine was written.
3. Proposed revisions to add distracted driving points for habitual offender points is a simple addition to the Credentialing and Registration System (CARS) and is assumed to not have a fiscal impact.
