General Fund Balance	<u><u>\$0</u></u>	<u><u>\$0</u></u>	<u><u>\$0</u></u>	<u><u>\$0</u></u>

Description of fiscal impact

SB 81 allows the Department of Natural Resources and Conservation (DNRC) to lease state trust lands for underground storage of gas or liquified gas. Lease revenues from this activity would benefit trust beneficiaries but cannot be determined at this time.

FISCAL ANALYSIS

Assumptions

Department of Natural Resources and Conservation (DNRC)

1. DNRC is unable to estimate the amount of potential lease revenue from the underground storage of gas or natural gas at this time. Lease revenues would be determined by the number of entities requesting to lease state trust land for underground storage and the fair market value of the storage. It may take several years for these leases to materialize, therefore the agency cannot determine the potential future revenue at this time.
